# Brabender mixer manual pdf download full edition

The drive system is a 2.5 HP drive utilizing CAN (Controller Area-Network) Field Bus Communication. Heating/cooling is done either through a cold circulation thermostat or electrically with air cooling. The user-optimized WINMIX software provides evaluation of the results according to the latest standards. Once you have made your selection, close the filter window with a mouse click. no products found Brabender® measuring mixers are interchangeable measuring heads which serve, connected to a Plasti-Corder®, lab-station or Plastograph®, for determination of thermoplastics, thermosets, elastomers, ceramic molding compounds, fillers, pigments and much more plastic and plastifying materials under praxis-oriented conditions, cost-effective, reliable and little expenditure of time and material. The measuring mixers consist of a mixer backstand with gear unit and a mixer bowl. The ATR is a completely computerized torque rheometer, featuring a soft touch keypad for either PC or manual inputs and is equipped with our standard proprietary WINEXT and WINMIX software programs. Brabender ViscoQuick7 Pages The drive speed is up to 120 RPM with a 0% speed deviation through digital feedback. Counter-rotation towards each other at different speeds provides excellent compounding and mixing characteristics. The unit accommodates any C.W. Brabender mixer or extruder attachment up to 160 Nm (16,000 Meter-Grams). Use the search window or narrow down your search using the filter options under "Products" and "Product category" to get the best hits. The ATR Plasti-Corder computerized torque rheometer provides flexibility for either mixing or extrusion applications. An electronic safety system prevents the drive unit from damage due to overload. The blades are made of special steel. The ATR is provided with a single 5 zone temperature controller, 4 melt thermocouple inputs and multiple pressure inputs.
